COURSE OUTLINE

Navigating the Future: E-Invoicing in Malaysia

OVERVIEW

This one-day course gives a clear picture of e-invoicing in Malaysia: what it is, why it matters, and how to put it in place. It covers the rules, the practical steps and how to use e-invoicing tools so your organisation stays compliant.

WHO IT'S FOR

SME business owners, entrepreneurs, e-commerce traders, agents, dealers and distributors; managers in finance, HR, sales, procurement, IT and admin; staff who raise or approve purchases and expenses; freelancers and micro-entrepreneurs; IT facilitators and system admins; and consultants who help SMEs move to digital invoicing.

DURATION

1 day

DELIVERY

In-house · Public

OBJECTIVES

- Understand the basics of e-invoicing and its regulatory framework in Malaysia
- Recognise the benefits and challenges of e-invoicing
- Learn the steps to implement e-invoicing in your organisation
- Navigate and use e-invoicing software effectively
- Ensure compliance with Malaysian regulations and standards

MODULES

1. E-Invoicing Model in Malaysia

- Budget 2024 and latest e-invoice updates
